Abington Memorial Hospital

THE POWER TO HEAL

What if

I could go to a local hospital
recognized for
treating complex and
rare cancers?

Abington Memorial Hospital's Rosenfeld Cancer Center has been designated a Blue Distinction Center for Complex and Rare CancersSM by the Blue Cross and Blue Shield companies.

Learn more at www.amh.org/whatif

Note: Designation as Blue Distinction Centers means these facilities' overall experience and aggregate data met objective criteria established in collaboration with expert clinicians' and leading medical societies' recommendations. Individual outcomes may vary. To find out which services are covered under your policy at any facilities, please call your local Blue Cross and/or Blue Shield Plan.

THE POWER TO HEAL

What if

I want my heart defect
fixed without
open-heart surgery?

We're using remarkable technology to repair heart defects—such as holes in the heart—through a catheter. Our highly specialized cardiology team performs the minimally invasive percutaneous closure.

Abington Memorial Hospital

THE POWER TO HEAL

What if

I want a normal heart rhythm
restored without
surgery?

In our electrophysiology labs and operating rooms, we are using the latest minimally invasive laser technology and radio frequency to eliminate the source of irregular or abnormal heart beat.
